UNIT POWER
BUTTON
& AIR
COMPRESSOR

WHEN DONE SPRAYING:

1. Transfer hose to rinse jar and run for approximately 1 minute (this only needs to be done at end of day)
2. Press power button on wand to turn off electrostatic and run 10-12 seconds.
3. Press power button on Cube
4. Place wand back in holder.

JACKERY CHARGER

JACKERY CHARGING INSTRUCTIONS

JACKERY BATTERY

POWER CHORD

CHARGE THE BATTERY:

1. Plug the Jackery charger into a wall outlet and into the top left input in the battery under the INPUT label.
2. Plug the power chord into the center AC input, right about the PURE SINE-WAVE label on the battery.
3. Wait for the Jackery display to read 100% to ensure full charge.

TIP: For easy use, charge the battery over night.
